The Honorable Brian Schatz  
United States Senate  
722 Hart Senate Office Building  
Washington, DC 20510

Dear Senator Schatz,

Thank you for your letter regarding the 2020 Census and the role Google and YouTube can play to ensure the census is full, fair, and accurate. We appreciated the opportunity to brief your staff on our census efforts. This past March we established our 2020 U.S. Census Taskforce, a team to support the operations and security of the 2020 Census across Google and YouTube. The Taskforce will work to prevent bad actors from abusing our services to spread misinformation or to conduct fraudulent activity around the census such as phishing or other scams.

We will be making a public announcement shortly describing our work in this area and linking to some policy updates we're making to explicitly cover the census process.

It's important that we are all prepared for the census, and we want you to be assured that we are working hard on our end. We will continue to update you regarding our work on this important issue.

Sincerely,

A handwritten signature in blue ink that reads "Mark Isakowitz". The signature is stylized with a large "M" and a long, sweeping underline.

Mark Isakowitz
